Confined Space Entry Course + Gas Testing - For Workers & Standby Person

This 1 day course for basic confined space entry training and to act as the standby person plus learn to conduct gas test operations. Course includes these 4 key units of competency:

RIIWHS202E Enter and work in confined spaces which is the minimum requirement for all workers entering and working in any confined space. The learning outcomes include, confined space awareness, legislative requirements, hazard and risk controls, tools and equipment, entry, exit and clean up procedures.

MSMPER200 Work in accordance with an issued permit provides understanding and training on how permit systems work and to maintain a safe and compliant workplace.

MSMPER202 Observe permit work allows the workers to act as the standby/spotter to ensure all workers inside the confined space are safe and conditions of the work permits are followed.

MSMWHS217 Gas test atmospheres will enable the operator to test atmospheres using a range of testing equipment in order to determine a safe atmosphere for workers. The competency requires the operator to safely take and interpret gas readings and take the appropriate actions.

Duration & Delivery Options:

- Full face-to-face: 8 hours
- Blended learning: Online theory + 3-4 hours face-to-face (recommended)

There is no prerequisite for this course.

Successful completion of this training will be awarded the **Statement of Attainment** which will be emailed on completion of the training course.

Course consists of both theory and practical, including theory and practical assessments.

Course combo: With blended learning, you can include an additional course and complete on the same day - Save 20% of the total pricing when you combine courses!
