## 1 KEY UNIT OF COMPETENCY

### **PUAFER005**

*Operate as part of an emergency control organisation*

## Online Fire warden Training Course

This training provides learners with the skills and knowledge to operate as part of an emergency control organisation. It applies to employees within all industries. It places responsibility on individual employees who are delegated roles within the emergency control organisation and to participate in the preparation of workplace emergency procedures. This may including raising alarms to report potential workplace emergencies, evaluate the need to evacuate and prepare for an evacuation including evacuating people who may require assistance in accordance with workplace emergency procedures.

This unit has been developed to cover the broad range of emergencies and workplaces as considered in Australian Standard 3745-2010.

### Certification and Outcomes

Participants who complete the course will receive the **Statement of Attainment** for the following nationally recognised unit of competency:

- **PUAFER005 Operate as part of an emergency control organisation**

**Delivery is 100% Online through the e-learning platform  
(Learn at your own pace)**

### Alternatives Delivery Options:

- Face-to-face: 3 hours
- Blended learning: Online theory + 1.5 hours face-to-face

There is no prerequisite for this course.

## Online Fire warden Training Course

Course consists of both theory and virtual based scenarios, including theory and simulated activity assessments.
