First Aid Training

This training course provides the skills and knowledge to provide a first aid response in a range of environments including within the community or a workplace setting.

First Aid training course includes these 3 key units of competency:

- **HLTAID009** Provide cardiopulmonary resuscitation
- **HLTAID010** Provide basic emergency life support
- **HLTAID011** Provide first aid

Duration and Delivery Options:

- Full day of face-to-face: 8 hours
- Blended learning: Online theory + 4 hours face-to-face (recommended)

There is no prerequisite for this course.

Successful completion of this training will be awarded the **Statement of Attainment** which will be emailed on completion of the training course.

Course consists of both theory and practical, including theory and practical assessments.

Note: This unit of competency - HLTAID011 Provide first aid, is recommended to be renewed every 3 years as per industry standards.

Course combo: With blended learning, you can include an additional course and complete on the same day - Save 20% of the total pricing when you combine courses!
