## 2 KEY UNITS OF COMPETENCY

### HLTAID009

*Provide cardiopulmonary resuscitation*

### UETDRRF004

*Perform rescue from a live LV panel*

## Low Voltage Rescue & Cardiopulmonary Resuscitation (CPR) Training

Perform rescue from a live LV panel, covers rescue procedures from low voltage apparatus, not including overhead power lines or underground cables. It also covers legislative requirements, hazard and risk management and relevant Personal protective equipment and equipment.

The additional unit HLTAID009 Provide Cardiopulmonary Resuscitation, provides the skills and knowledge to provide cardiopulmonary resuscitation (CPR), in line with the Australian Resuscitation Council (ARC) Guidelines. It is designed for workers in any industry that may require the skill of CPR.

LVR/CPR training course includes 2 key units of competency:

**HLTAID009 – Provide cardiopulmonary resuscitation**  
**UETDRRF004 – Perform rescue from a live LV panel**

### Duration & Delivery Options:

- Face-to-face: 4 hours
- Blended learning: Online theory + 2 hours face-to-face (recommended)

Note: The unit of competency – UETDRRF004 Perform rescue from a live LV panel & HLTAID009 Provide cardiopulmonary resuscitation must be renewed every 12 months as per industry standards.

**There is no prerequisite for this course.**

Successful completion of this training will be awarded the **Statement of Attainment** which will be emailed on completion of the training course.

Course consists of both theory and practical, including theory and practical assessments

**Course combo: With blended learning, you can include an additional course and complete on the same day - Save 20% of the total pricing when you combine courses!**
